

A Full Stack Developer who specializes in JavaScript Technologies (React.js, Node.js, Express). Building complete web applications with backend API Systems. Full of passion for tech and the web, ready for the challenges of the industry.

Technologies and Languages

- Languages: JavaScript, TypeScript, SQL
- Frontend: Html, Css, Sass, Bootstrap, React.js, Redux
- Backend: Node.js, Express, PostgreSQL, Sequelize ORM
- Other: Git, Figma, Rest API, MVC Pattern
- Speak: Advanced English, Native Spanish, Basic French
- Soft: Adaptability, coachable, goal oriented, able to provide results with little to no supervision.

Education and Certifications

- **Software Analysis and Development**, SENA, Colombia. **2023-Ongoing**
- **Foreign Languages (English, French)**, University of Cartagena, Colombia. **2019–2023**
- **Systems Engineering, Computer Science**, University of Cartagena, Colombia. **2015–2016**

Main Projects

- **Paracuando Rest API** - Rest API with good practices.
 - Javascript, Node.js, Express.js, PostgreSQL, Sequelize ORM, S3, Passport, Jwt, Swagger, Bcrypt.
 - Authentication with Passport and JWT, implemented with MVC architectural pattern, security with BCrypt, documentation on Swagger with authorizations, Scalable, with Migrations and Seeders, AWS S3 Buckets, Middlewares for error handlers - Multer - and users verifications, and paginations for better responses.
 - [JorSchmitz / paracuando-api \(github.com\)](https://github.com/jorschmitz/paracuando-api).
- **Pokédex** - Search your favorite pokemon.
 - HTML, CSS, Javascript, React.js, Redux.
 - Paginated view of pokemons, with filters to search by name and type.
 - [Pokedex - Demo \(jorsch-pokedex.netlify.app\)](https://jorsch-pokedex.netlify.app).
 - [JorSchmitz / Pokedex \(github.com\)](https://github.com/jorschmitz/pokedex).
- **Rick & Morty** - Rick and Morty World. Search for characters based on location.
 - HTML, CSS, Javascript, React.js.
 - Paginated view of characters from a random planet of Rick n Morty, with filters to search for the characters from every planet of the series.
 - [Rick n Morty - Demo \(jorsch-rick-n-morty.netlify.app\)](https://jorsch-rick-n-morty.netlify.app).
 - [JorSchmitz / rick-n-morty \(github.com\)](https://github.com/jorschmitz/rick-n-morty).

Work Experience

Call Center Representative

Agent

Teleperformance

Cartagena, Colombia

2020–2023

- Customer service using advanced English for customers English speakers around the world.
- High customer service satisfaction, 90%+ on Surveys.

Tech team

Cartagena, Colombia

- Created the landing page with Vanilla CSS and JavaScript together with Wordpress and a Brochure with the help of a Designer.
- Improved client contacts by 20% after the deployment of the landing page.
- Maintenance and support of existing systems.
